

Information for refugees

Emergency

112

In life-threatening situations,
call 112.

General practitioner care

You are currently only entitled to emergency medical care, and you have access to regular healthcare in the Netherlands. In the event of health problems, you can take your healthcare question to the contact person (location manager or nurse) of the location where you are currently staying. They will refer you to the right healthcare provider and/or pharmacy.

Other healthcare-related questions

For other healthcare-related questions, please contact the location manager or nurse of the location where you are currently staying.

More information

Clicking on the orange links opposite or scanning the QR codes will take you to the websites of the relevant organisation for more information.
